11N GENERAL STRIKE

RAISE THE WAGES, LOWER THE RENTS!

Having a job is no longer enough to guarantee access to decent housing. While wages lose purchasing power, the price of housing keeps on rising and an ever-larger share of the wealth we produce ends up in the pockets of speculators, landlords, and employers.
From CGT, we call on the entire working class to turn the general strike on 11th November into a day of struggle that goes beyond the workplace and fills the streets.
Because without a decent wage, there is no decent housing, and without decent housing, there is no decent life!

WHAT DO WE WANT?

1. DECENT AND AFFORDABLE HOUSING FOR ALL.

Real measures to end property speculation and guarantee housing as a right, not a business.

2. RECLAIM HOUSES FROM VULTURE FUNDS.

Incorporation of properties accumulated by large landlords and vulture funds into a public stock of accessible housing.

3. REGULATE REGULAR AND SHORT-TERM RENTS.

Regulation of short-term and room rents, reinstatement of indefinite rental contracts, and an end to hidden rent increases.

4. NO MORE EVICTIONS WITHOUT AN ALTERNATIVE.

Immediate moratorium on evictions of people and families who do not have a decent alternative housing solution.

5. WAGES LINKED TO REAL CPI (Consumer Price Index).

Enough of losing purchasing power! Wages must increase in line with real inflation and the cost of housing.

6. REDUCTION OF THE WORKING WEEK TO 35 HOURS.

Work and personal life balance, with no pay cut. Work less to live better!

7. MINIMUM SALARY AND PENSION OF €1,500.

Sufficient income to guarantee a decent standard of living.

11th NOVEMBER: LONG LIVE THE GENERAL STRIKE!
